Why choose the AMARU 5 Lite

- ✓ **The AMARU 5, at a starter price** — for early-stage businesses, test kitchens and artisan producers who want the AMARU workflow without the full investment.
- ✓ **Up to 10 kg per batch** — same chamber and 5-tray system as the AMARU 5.
- ✓ **Same output, essentials only** — identical drying capacity and results; trades the new Pfeiffer pump for a refurbished high-quality one, drops the ISO valve and automatic vacuum release (manual instead), and isn't Deheater-compatible. Ivory finish.
- ✓ **Efficient and simple** — 27 kWh/24h, defrost under 30 min, 4.3" touchscreen, all other AMARU accessories compatible.
